

A Symbol of Excellence

Central Laboratories

Curriculum Vitae

Name: DR ZHAO XIUYING

Address: ICON Central Laboratories
TICH;CHN
61 Third Avenue, TEDA Tianjin 300457; China

Education

Jan, 2002-Jun, 2005	Department of Microbiology, the University of Hong Kong, Ph.D in Microbiology
Sep, 1996-Jul, 1999	Department of Medicine, Capital Medical University, M.D in Internal Medicine
Sep, 1986-Jul, 1991	Department of Medicine, the Medical college of Inner Mongolia, Bachelor in Medicine

Professional Experience

Oct, 2014-to date	Medical director(part time), ICON Central Laboratories, Tianjin, CHN
Oct, 2012-to date	Director, Center of clinical laboratories, Beijing Tsinghua Changgung Hospital. Specialized in immunological research, molecular diagnosis of infection diseases and laboratory management
Sep, 2005- Sep, 2012	Vice director, Center of clinical laboratories, Beijing You-An Hospital, affiliated to Capital Medical University. Specialized in immunological research, molecular diagnosis of infection diseases and laboratory management
July, 2000-Dec, 2001	Attending doctor, Beijing You-An Hospital. Majored in clinical diagnosis and treatment of infectious diseases
July, 1991-Aug, 1996	Resident, Beijing You-An Hospital, Specialized clinical diagnosis and treatment of infectious diseases

Professional / Vocational Qualifications

Jan, 2009-to date	Associate professor, Capital Medical University; Tsinghua University
Mar, 2007-Feb, 2013	Committee member, department of clinical laboratory

A Symbol of Excellence

Central Laboratories

diagnosis, Capital Medical University

Oct,2013-to date	Committee member of Chinese medical doctor association, Clinical laboratory medicine branch
Aug, 2012-to date	Standing committee, Beijing Committee member of medical doctor association, clinical laboratory medicine branch
Nov,2011-to date	Chief physician

1. Zhu D, **Zhao XY*** (corresponding author), Yao Y, Dai FF, He H, Li RQ, Jin RH, Liang LC and Li N. A new factor influencing pathogen detection by molecular assay in children with both mild and severe hand, foot and mouth disease *Diagnostic Microbiology and Infectious Disease* 2013,76(3):162-167.
2. Zhu D, Chen JM, Wei H, Tian SP, Dai FF, Zhao XY* (corresponding author) . Application and clinical analysis of automatic diluting hepatitis b virus surface antigen quantification assay. *Chinese J. of Laboratory Medicine* 2013,36 (2) :180-182.
3. Liu SM, Zhao XY* (corresponding author) , Yu YH, Chen M, Guo CP, Wu H. Detection and analysis for the human immunodeficiency virus (HIV) infection or acquired immune deficiency syndrome (AIDS) patients' mycobacteria (MB) bacteremia. *Chinese Journal of Nosocomiology* 2013,23 (8) :1983-1985.
4. Jian FF, Wang WJ, Zhao XY* (corresponding author) , Yao Y, Zhu D, Yu YH. Application analysis on detection of four serum indicators with a domestic chemiluminescence reagent in hepatic fibrosis diagnosis. *Beijing Medical Journal* 2012,34 (3) :164-168.
5. Liu Y, Ren X, Huang XJ, Zhao XY (corresponding author) . The appliance and assessment of HIV1/2 enzyme-linked fluorescent immunity test in STD screening clinically. *China STD AIDS* 2011, 17 (6) : 688-690.
6. Yang XH, Yao Y (co-first author) , Chen MF, Yang X, Xie YD, Liu YF, Zhao XY* (corresponding author), Gao Y and Wei L, Etiology and Clinical Characteristics of Influenza-Like Illness (ILI) in Outpatients in Beijing, June 2010 to May 2011, 2012;7(1):e28786. Epub 2012 (<http://www.ncbi.nlm.nih.gov/pubmed/22238581>)
7. Yao Y, Zhao XY* (corresponding author) , He H, Li RQ, Wang WJ, Zhu D, Sun Gz. Detection and clinical analysis of EV-71, CA16 and respiratory virus con-infection in patients with Hand, foot and mouse disease. *Chinese J. of Laboratory Medicine* 2011, 34 (8) : 695-697.
8. Zhao XY*, Li N, Ding HG, Jiang FF, Detection and evaluation of serum GP73, a resident Golgi glycoprotein, as a marker in diagnosis of hepatocellular carcinoma. *Chinese J. of Oncology* 2010, 32 (12) : 943-946.
9. Wang WJ, He H, Zhao XY* (corresponding author) , Jiang FF, Sun GZ, Liang LC , et al., Detection and analysis of nucleic acid of influenza A virus(H1N1) in blood and urine samples of H1N1 patients. *Chinese J. of Nosocomiology* 2010, 20(3): 805-806.
10. Zhao XY* (corresponding author) , Wu H, Lee SS, Wong KH, Chan CW, Zheng BJ. Polymorphism analysis on chemokine SDF-1 α transcript being the ligand for HIV-1 coreceptor CXCR4. *Chinese J. Laboratory Medicine* 2008, 31 (5):523-527.
